

## PROFILE

Experienced Full Stack Developer with a strong background in web and mobile application development. Skilled in building scalable, high-performance solutions that drive efficiency and innovation. Adept at collaborating with cross-functional teams, ensuring seamless development and deployment processes. Passionate about leveraging technology to solve complex problems and optimize business operations.

---

## EXPERIENCE

### PT. Hexpharm Jaya Laboratories (A Kalbe Company)

Mar 2023 - Present

#### Full Stack Web Developer

- Developed a nationally-used web-based medical public website, serving 110K+ monthly users.
- Built a web-based promotional item stock management system, integrated with logistics vendors.
- Created a marketing request platform for medical promotional materials, scientific memos, and presentation requests.
- Developed a HR portal for room booking, employee resignation, and company housing rental.
- Implemented a SCORM-integrated HR training platform for new employees.
- Developed a mobile app for public medicine sales, enhancing accessibility for customers.
- Created automated WhatsApp notification agents for various company processes.
- Led the development of a standardized API to streamline application integrations across the company.
- Built an internal IT documentation portal to centralize records of servers, applications, infrastructure, DNS configurations, system credentials, and tablets used by the sales team.

### Soegijapranata Catholic University

Oct 2019 - Dec 2022

- Built a web-based internal system for the Faculty of Medicine to streamline administrative tasks.
- Developed a web-based new student admission system, which is still actively used today.
- Deployed Hadoop for a Big Data lab, enhancing data processing capabilities.
- Conducted Twitter data annotation for AI-driven research projects.
